

## GERRY BERTIER #42 FOUNDATION

Gerry Bertier is recognized as one of Alexandria's 100 Greatest Athletes. He was a leader on perhaps the best football team in Virginia high school history, the 1971 T.C. Williams Titans. Gerry was Alexandria's first high school All-American and "probably the best linebacker in the country at the time," according to head coach Herman Boone.

Gerry suffered a spinal cord injury following that season and thereafter used his leadership and advocacy skills to make the world more accessible for people with disabilities. Tragically, Gerry died in 1981 when his car was struck by a drunk driver. The popular Disney movie "Remember the Titans" memorialized him and his teammates.

The Spinal Cord Injury (SCI) **Rehabilitation and Research Center** at Virginia Commonwealth University Health System (VCUHS) provides comprehensive state-of-the-art care with a commitment to improve hope, function and quality of life. VCUHS is the only Level I trauma center in central Virginia and one of just 20 institutions nationwide to have had federal designation as a Model Systems for SCI Care.

The goal of the national SCI research program at VCUHS is to pursue medical and therapeutic advancements in care and outcomes for individuals with SCI. The program actively participates in collaborative projects sponsored by the National SCI Model Systems and provides leadership in national dissemination and education.
